

# JOB POSTING

## MECHANICAL ENGINEERING TECHNOLOGIST

FEBRUARY 10, 2025

Rus-Tec Engineering is seeking two **Mechanical Engineering Technologists** to join our team on a full-time basis.

The ideal candidate has a strong desire to continuously learn and grow in experience and capabilities. This role will involve a variety of drafting and design work related to equipment and machine design and steel fabrication. The role is primarily office based, with opportunities for site visits and field support on occasion.

### Duties

- Creating 3D models and drawings in Inventor AutoCAD for various projects
- Assistance with engineering design, technical documentation, administration
- Creation, review and filing of engineering outputs and deliverables
- Project and field support work for existing equipment & structures and new fabrication

### Experience

- Diploma in Mechanical Engineering Technology or equivalent
- Experience and aptitude with Autodesk Inventor or similar software

Rus-Tec Engineering is a small and dynamic firm located in Devon, AB, serving customers locally and internationally. We strive to meet our customers' needs by offering creative and practical design solutions, timely delivery, and continuous support.

Our employees are offered competitive wages, extended health benefits, and remote work options.
